Ave. K and 9th St.
P.O. Box 305
Perdue, Sask S0K3C0

Dear Jim,

Congratulations! The **Envirol System E-ZEEWRAP 1000** has received the Cooking Club of America Kitchen Tested Seal of Approval. The evaluations from the members are enclosed for your use and information. If your firm uses any quotes, photos or member names from these reports, you must obtain a written release from the individual.

When you use the Seal of Approval Logo, it will be recognized by hundreds of thousands of Cooking Club of America members when they visit their favorite stores and when they see your advertisements. When you use the logo and/or quotes from the reports, please send a sample to me for our files.

To maximize your product's exposure consider running an ad in the magazine issue that contains the test results for the Envirol System E-ZEEWRAP 1000. Contact our Publisher, Nancy Benedict at (612) 352-7005 to find out all the details. If you have any questions, or have other products you would like to test, please contact me at (800) 207-8571.

Thanks again for your support of the Cooking Club of America Kitchen Tested Program.

Sincerely,

Karin Margolis
Product Test Coordinator
